All in all, enjoyable film, just felt room for improvement. Highly recommended! 🔥

Jake Sully provides some narration to get us up to speed on what's been going on for the past ten years. When we first met Jake in 2009, he was a disabled veteran living on a futuristic Earth, which is slowly dying due to the aggressive industrialization of humanity. Jake explains in his opening monologue that his twin brother had been killed in a robbery, that brother also happened to be a brilliant scientist studying to travel to the vibrant jungle planet of Pandora. Jake's brother was also a part of the Avatar program, where humans had created clone bodies that morphed the DNA of their own and the native Na'vi in an attempt to ease relations with them. Due to Jake being a twin, his DNA makeup is nearly identical and is offered by his twin's employers to come to Pandora and pilot his avatar. Jake accepts, and all of this is explained in expository narration by Jake. At the start of The Way of Water, Jake explains that he is not only a permanent Na'vi member and leader of the Omatikaya Clan, he's also become a dedicated husband to his wife Neytiri (Zoe Saldana) and a total of five children. Jake briefly introduces his three biological children consisting of the oldest Neteyam (Jamie Flatters), the middle teen Lo'ak (Britain Dalton), and the youngest child Tuk (Trinity Jo-Li Bliss). The two other children require more explanation from Jake as they're both adopted and extremely significant to Jake's past. The first is Kiri (Sigourney Weaver), the miraculous Na'vi daughter of Jake's late friend Dr. Grace Augustine (also Sigourney Weaver) and the second is a human outcast named Spider (Jack Champion), later revealed to be the son of Jake's old enemy Colonel Quaritch (Stephen Lang). After introducing the family, that's really all there is to what Jake has been up to. Might seem anticlimactic to some, but it's a good way to show that life on Pandora has been largely peaceful and pleasant. That's until the stars begin to fall and the humans have returned to conquer Pandora.
